

What this is about

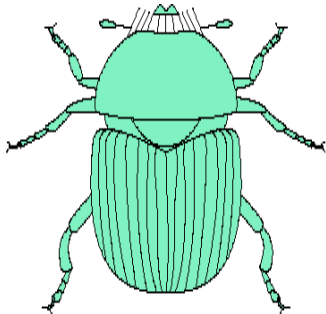

In this activity you hunt for minibeasts hidden in a computer database or CD-ROM

You have just found the following creatures - use a computer database to identify them.

What to do

Get your computer database on minibeasts on the screen. Use the clues and search the database to find and identify the creatures below.

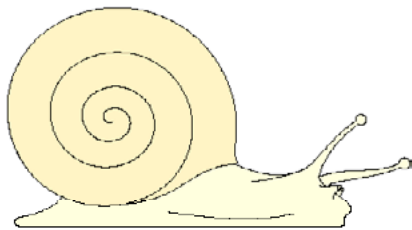

What is this?

We saw this creature under a log. It has a red body.

How many legs does it have?

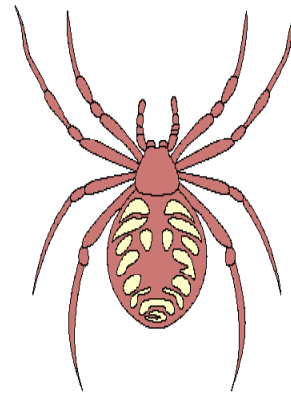

Can it fly?

We found this creature on the garden compost heap.

What is it?

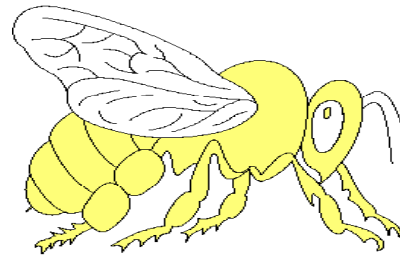

What does it eat?

We found this minibeast too.

What is it?

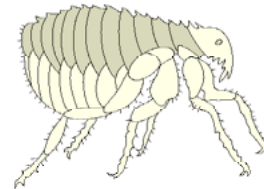

What colour is it?

We saw this in some flowers.

Where else might you find it?

What does it eat?

This creature moves fast.

What colour is it?

How does it move?

Note:

This is the sort of introductory activity you can build around a database or CD-ROM on minibeasts or animals.
